Suppliers of Cabinet Hinges For use with Trespa 1/2" and 3/8" thick panels

Cabinet Fabricators that use Trespa have had success using the following hinges.

Most cabinet hinges are typically for 3/4" doors and 3/4" end-panels. With Trespa, 1/2" or 3/8" end-panels & 1/2" doors have superior durability, and are lighter weight. The following manufacturers make hinges for these sizes.

Prameta Aximat 300 Flat Hinge 270 opening
1/2" or 3/8" door & ends, self-latching hinge
Available through Hafele America 888-437-7477
